### SMALL VALUE LICENCES—ENHANCEMENT OF

It is well known that the system of quota licences freezes the pattern of import trade. The rigid application of this system has, by circumscribing the opportunities for the exercise of commercial skill and enterprise, operated as a stumbling block for attempts on the part of small importers to improve their business. An attempt has been made to provide an opportunity to small licence holders to expand their business to a limited extent in the items mentioned in the first two columns of the table below. The words "small value licences will be enhanced" have been inserted against the items concerned in the remarks column of the Policy Statement in Section II of the Red Book.

2. In the case of items where quota licences upto a certain value limit will be doubled, the Established Importers whose entitlement works out to less than twice the figure quoted in column 3, will be eligible to ask for the value of their licence to be suitably enhanced so as to provide adequately for marginal adjustments.

LIST OF ITEMS WHERE SMALL VALUE LICENCES HAVE BEEN ENHANCED

## APPENDIX 11

*Machine Tools—Licensing Policy for April 1965—March 1966*

For purposes of licensing, Machine Tools falling under Part VI of the Import Trade Control Schedule (vide Schedule A attached) are divided into two main categories, *viz*:—

(a) those falling within the definition of Capital Goods, and

(b) others.

2. The rules and procedure in the case of Machine Tools falling in the category of Capital Goods have been set out in Chapter V of the Handbook of Rules and Procedure 1964 as amended. The import policy for Machine Tools which do not come under the category of Capital Goods scheme is set out in the succeeding paragraphs.

3. Hitherto, the licensing authority for Machine Tools was the Development Officer (Tools) in the Directorate General of Technical Development. With effect from April 1965—March 1966 period, the licences for Machine Tools will also be issued by the Import Trade Control authorities as indicated in the succeeding paragraphs.

4. Machine Tools other than those mentioned in Schedule 'B' to this Appendix will be licensed to Established Importers. The applications should be made by Established Importers to the port licensing authority concerned in Form 'A' given in Appendix 6 to this book and the application should be accompanied by five lists of items in the proforma given in the annexure to this appendix. The quota licences for Machine Tools will be granted for imports from the U.S.A. under US-Aid during April 1965—March 1966. Licences granted to Established Importers during the current period would be valid for import of complete Machine Tools only to the extent of 92 per cent of their face value. The balance 8 per cent could only be utilised for import of spare parts of permissible Machine Tools to be authorised by the licensing authority. It is expected that importers will stock sufficient spares for Machine Tools to keep the machines supplied by them running. The policy and procedure for the import of Machine Tools by Established Importers under US-Aid will be announced separately.

5. In addition to the provision for grant of licences for import of Machine Tools from U.S.A. under US-Aid in para 4 above, quota licences will also be issued to Established Importers for import of spare parts of permissbile Machine Tools as specified in Schedule 'A' to this appendix from General Area on a quota of 1¼% of half of their best year's imports of complete Machine Tools.

6. Applications from Established Importers for licences for import of Machine Tools and spare parts of permissible Machine Tools

APPENDIX 11—*contd.*

should be submitted separately in duplicate in the prescribed Form 'A' along with a treasury receipt showing the payment of application fee on the value applied for.

7. The applications for licences for spares of such Machine Tools as are banned will be considered in consultation with the Development Officer (Tools) in the Directorate General of Technical Development. The import of second-hand Machine Tools will not be allowed for stock and sale.

8. The Actual Users in the small scale sector should submit their applications for permissible Machine Tools valued upto Rs. 5,000/- to the port licensing authority concerned, in the prescribed Form 'B' as given in appendix 6 to this book. The applications should be submitted through the sponsoring authority concerned. The sponsoring authority will forward the application to the licensing authority with his recommendation to be given in Part III of the application form.

9. The applications from Actual Users in the small scale sector for import of permissible Machine Tools exceeding Rs. 5,000/- in value and applications from other Actual Users for import of Machine Tools of any value will be considered by the Chief Controller of Imports and Exports, New Delhi. The application should be made in Form 'E' given in appendix 6 and should be accompanied by a list of items in the proforma given in the annexure to this appendix. The applications should be made through the sponsoring authority concerned. The sponsoring authority will forward the application to the Chief Controller of Imports and Exports with his recommendation.

10. Applications from Actual Users for import of second-hand Machine Tools must be accompanied by a Chartered Engineer's certificate bringing out the following information:—

(i) Full specification of the second-hand machine tool; Maker's name for the machine and price of the machine or similar machine if bought new.

(ii) Year of make.

(iii) Name of the firm which carried out reconditioning/repairs, if any, and nature of repairs carried out.

(iv) Present condition and expected life subject to normal care and maintenance and use within its designed capacity.

(v) Professional standing of the Chartered Engineer who should normally be an independent party having nothing to do with the firm selling the second-hand machine.

(vi) Photograph of the machine if available.

Requests for issuing of import licences for second-hand Machine Tools, subject to the condition that the requisite Chartered Engineer's certificate would be produced to the satisfaction of the licensing

APPENDIX 11—*contd.*

authority before shipment is effected, would also be considered on merits in consulation with Development Officer (Tools).

11. Established Importers can also make applications on behalf of Actual Users for import of Machine Tools required by them. Such applications will be considered on the recommendation of the sponsoring authority concerned. The licences will be granted in the name of the Actual Users with a letter of authority in favour of the importing house.

12. It will be necessary for the applicants to indicate from which particular country they propose to obtain the equipment. As the funds available for such licensing from different countries vary and cannot always be used for imports from other countries, importers should when specifying the stores of supply also indicate alternative sources from which the equipment could be made, if possible, in order of preference. In case, the country of supply is not indicated, there is a delay in the disposal of the application.

13. All applications whether by established importers or by actual users should contain as far as possible full descriptive details of the machine tools desired to be imported together with c.i.f. value of each item separately. Descriptive catalogues if available should be sent along with the application.

14. Licences will be granted to meet the specific orders placed by the Director-General of Supplies and Disposals and other Government Undertakings.

15. The validity of licences will, in the case of machine tools required to fulfil D.G.S.&D. and Railway contracts, be in accordance with the delivery period mentioned in the contract. In the case of US-Aid licences validity will be governed by the terms and conditions of loan. In other cases, licences will have a validity of eighteen months from the date of issue.

16. All Actual Users whether scheduled industries borne on the register of the Directorate General of Technical Development, scheduled industries not borne on the register of the Directorate General of Technical Development, non-scheduled industries and small scale units should include their requirements for import of spare parts of Machine Tools in their consolidated applications for import of raw materials, components and spare parts in the appropriate prescribed application form. No separate application from actual users for spare parts of Machine Tools will be entertained.

17. Applications for import of spares for machine tools will also be entertained by the licensing authority concerned from manufacturers' sole selling agents other than the quota holders of the machine tools, for servicing machine tools already imported. This will be based on the past utilisation of such import licences received by them only in case such new-comers are ineligible to establish their regular quota as per I.T.C. policy. The intending new-comer

18. The licensing authority will at his discretion discontinue issuing licences for such types of machine tools as have been licensed in sufficient quantity during the current licensing period.

19. The last dates for submission of applications by Actual Users and Established Importers will be the same as given in Section I of this book.

*N. As such, all Adapter Ball Bearings as shown in Appendix 14 (2) and (3) can only be imported within the restricted imports irrespective of the fact whether they are imported with or without the sleeves. The face value of restriction for any single type of Adapter Bearings will henceforward deem to apply jointly for both inch sizes and millimeter sizes in case of Adapter Bearings. In other words ceilings under the face value of each size will be a joint ceiling for inch as well as the corresponding millimeter size. This will also apply to non-restricted types of Adapter ball bearings.

(*ii*) In addition to the two makes given in the appendices, viz., Hoffmann and SKF ball bearings of other makes falling within the specific sizes and specific types mentioned in the appendices will also be treated as restricted types and will be licensed within the restricted imports.

(*iii*) Catalogue references quoted in the appendix are purely for purposes of identification and no representation from any manufacturer Indian or Foreign for inclusion of his brand will be entertained.

## APPENDIX 19

(Section II—S. Nos. 87, 109/IV)

DRUGS, MEDICINES AND PHARMACEUTICAL CHEMICALS—LICENSING POLICY FOR APRIL 1965—MARCH 1966.

Some of the drugs and medicines are given in Lists I, II and III. Licences issued for drugs and medicines will not be valid for import of items mentioned in List II, but past import of items shown in List II, if imported within the basic period, will count for computation of consolidated quota for drugs and medicines. List III contains items of drugs and medicines for which licences will be granted separately for each item on a quota based on imports of individual items. The consolidated quota certificates issued to established importers for general and soft areas respectively will not be disturbed though a few items have been given separate quotas based on the import of those items only and included in List III. However, in cases where quotas have been established only on the basis of past imports of a single item under general drugs and medicines, which is subsequently included in List III, the quota certificates so issued will have to be surrendered, if the importers desire to get their quota re-established under List III on the basis of the past imports of that item.

2. Licences will be granted on a quota of 5 per cent. of half of the best year's imports of Drugs and Medicines falling under this S. No. excluding items 1 to 42 in List III and S. No. 31 (b)/V. These licences will be valid only for import of items as detailed in List I.

3. Quota licences granted under this procedure will not be valid for the import of drugs and medicines shown in list II & III.

4. Quota licences granted for items specified in List III of this Appendix will also be valid for import of drugs and medicines included in List I (Essential List) of this Appendix. However, quota licences granted for 'Crude drugs for Ayurvedic and Unani medicines' and 'Homoeopathic medicines' will not be so valid.

5. A.U. applications from Hospitals, Clinical, Pathological and Analytical laboratories and other recognised institutions for import of essential equipments and accessories including Surgical and Scientific instruments, and special drugs and chemicals will be considered by C.C.I. in consultation with the D.G.H.S., New Delhi, against a ceiling. Applications should be submitted to the C.C.I. & E through the State Health Department who will certify the essentiality of the stores proposed to be imported.

6. Applications for additional licences from established importers of surgical ligatures and sutures (S. No. 93-94 (e)/V) and drugs and medicines (S. No. 87, 109/IV) for import of surgical ligatures and

APPENDIX 19—*contd.*

sutures may be considered by the Chief Controller of Imports, New Delhi in consultation with the Directorate General of Health Services, New Delhi against the ceiling for drugs and medicines. Applicants should be holders of import licences under the Drugs and Cosmetics Act, 1940 and should indicate in their applications particulars of their Drug Import Licence Number, the value of the quota licences granted to them during the previous two periods, the extent to which the licences have been utilised and the c.i.f. prices of the items proposed to be imported.

7. *Import of free samples of drugs and medicines*:—In order to minimise delay and inconvenience to *bonafide* sole representatives of manufacturers abroad in importing consignments of free samples of drugs and medicines, it has been decided to authorise the licensing authorities at the ports to grant Customs Clearance Permits to cover the import of free samples of drugs and medicines covered by List I of this Appendix subject to the following conditions:—

(1) No remittance of foreign exchange is involved;

(2) The c.i.f. value of the consignment is reasonably small and does not in any case exceed Rs. 5,000 (Rupees five thousand);

(3) The samples are imported in packings which are distinctly different from regular trade packings; and

(4) Each packing is clearly marked "Physician's samples—Not to be sold".

Applications should be made in the proper form and manner to the licensing authorities concerned. Only one Custom Clearance Permit will be issued to a firm wherever necessary and for this purpose only the Head Office of the firm should apply.

8. Customs Clearance Permits for new drugs will also be granted by C.C.I., New Delhi. Such applications should be made to C.C.I., New Delhi through the Drugs Controller, India.

9. With a view to ensure that the pharmaceutical industry is able to secure the essential basic drugs required by them, Actual user applications from such of the units which are not borne on the books of the Directorate General of Technical Development will be considered by the port licensing authorities. Such manufacturing units should submit their applications for import of these raw materials in the usual form and manner duly supported by the necessary essentiality certificates from the State Drugs Control Authorities as per list given in Annexure IV. The applicants should give full justification for the import of the items of raw materials applied for. In addition, they should also furnish information as required in Public Notice No. 70-ITC(PN)/57, dated 26th October, 1957 reproduced in Annexure V to this Appendix. The additional information required in terms of para 2(iv) of this Public Notice should, however, be furnished in the revised proforma given in Annexure III to this Appendix. Applications complete in all respects should be made so as to reach the Port licensing authority concerned by the 15th August 1965.

APPENDIX 19—*contd.*

10. In order that the pharmaceutical industry is able to secure special apparatus, instruments and equipment required for the manufacture of drugs and medicines and also chemicals and reagents required for testing the raw materials and finished products, actual users' applications from such of the units which are not borne on the books of the Directorate General of Technical Development will be considered by the Port Licensing Authorities on the basis of essentiality certificate granted by the State Drugs Control Authorities. Such manufacturing units should submit applications for import of these special apparatus, reagents, chemicals, etc., in the usual form supported by the necessary essentiality certificates and giving full justification for import of these special apparatus, etc. applied for.

11. Quota licences granted for List I and List III items will not be valid for imports of reagents labelled as specifically conforming to A.R. and G.R. qualities excepting Diagonostic Agents which are specified in Annexure VI to Appendix 19.

12. The provisions of Drugs and Cosmetics Act, 1940 and the Rules thereunder should be complied with wherever necessary. Applicants for import of drugs under the Import Trade Control Regulations should declare in their application forms that they hold valid licences under the Drugs and Cosmetics Act, 1940 for sale of drugs applied for by them and also quote the number and date of that licence.

Such manufacturing firms should submit their applications for import of these raw materials in the usual form and manner to C.C.I., New Delhi duly supported by the necessary Essentiality Certificate and giving full justification for the import of the items of raw materials applied for. In addition, they should also furnish the following information:—

(i) Source of procurement of the items concerned in the past and efforts made to secure supplies from these sources.

(ii) Extent of quota, if any, held by the applicants and the value of quota licence expected to be received by the applicant for the items applied for, for the period October, 1957—March, 1958.

(iii) Typed copy of the Manufacturing Licence held under the Drugs Act.

(iv) Additional information as per *proforma* attached.

3. The last date for submission of these applications will be 15th December, 1957 and applications received after that date will not be considered.

4. Scheduled industries will continue to receive licences under the normal procedure.

### (Section II—S. Nos. 293, 295 and 297/IV)

### MOTOR VEHICLE PARTS—LICENSING POLICY FOR

Licences for Motor Vehicle parts falling under S. No. 293, 295 and 297 of Part IV will be granted to established importers on the basis of a joint quota of past imports of all the articles falling under these serial numbers, excluding the List III items. Quotas already established will not, however, be disturbed. But in cases where quotas have been established only on the basis of past imports of a single item under consolidated quota for Motor Vehicle parts which is subsequently included in List III, the quota certificates so issued will have to be surrendered if the importers desire to get their quota re-established under List III on the basis of the past imports of that item.

2. Import policy for import of Motor Vehicle parts other than those mentioned in List III of this Appendix, from USA under U.S. Aid will be announced later.

3. Actual user applications from State Transport authorities and other Fleet owners owning a fleet of 25 vehicles or above (Motor Cycles, Scooters and Auto Rikshaws are not to be taken into consideration as a part of the fleet) will be considered and licences issued on the basis of either 100 per cent. of half of their best year's imports during any one year 1954-55, 1955-56 and 1956-57 or Rs. 250 per petrol driven vehicle or Rs. 350 per diesel driven vehicle, whichever is more. A.U. applications should be made to the licensing authorities at the ports. Applications under this provision will also be entertained from Co-operative Societies with individual operators as members with a fleet of 25 vehicles or above, which are duly registered with the State Registrar of Co-operative Societies. The basis of A.U. licensing to such Co-operative Societies will be the same as is applicable to Fleet owners having a fleet of 25 vehicles or above. The applications from Fleet owners and Co-operative Societies with individual operators as members should also be accompanied with a certificate regarding the number of vehicles owned by them from the State Motor Transport Authority/Regional Transport authority. It may be clarified that individual members of Co-operative societies of transport operators are required to furnish IVC Registration/Exemption numbers. Such licences could be endorsed for the import of built-up diesel or petrol engines to replace similar engines on existing vehicles, subject to the condition that each actual user does not import more than six engines during a licensing period.

The Fleet owners owning a Fleet of 25 vehicles or above who will be entitled to receive A.U. licences for Motor vehicle parts under this Para will be those who own a Fleet of 25 vehicles or more. It is

APPENDIX 26—*contd.*

however, added that passenger cars meant for private use will not qualify for such A.U. licences. Money lenders who have advanced loans for purchase of vehicles which are being run by individual operators will not be eligible to receive licences as Fleet owners under this Para. The Fleet owners will be required to give an undertaking that they will utilise the Motor vehicle parts imported against the licences for the maintenance and servicing of the vehicles for which the licence has been obtained.

4. Firms with approved manufacturing programme will also be allowed licences in consultation with the Directorate General of Technical Development. The applicants should indicate the utilisation of licences granted to them in the last two or three licensing periods. They should make applications under usual procedure to the Chief Controller of Imports, New Delhi through the Directorate General of Technical Development.

5. Licences for Motor Vehicle parts granted on the basis indicated in the preceding paragraphs will not be valid for the import of the items specified in List I and List III; and not more than 3 per cent. of the face value of the licences can be utilised for the import of items specified in List II. However, State Transport authorities and public utility bodies like B.E.S.T. undertaking can apply for List III items in case they have no licence/licences of adequate value for those items. Such requests will be considered on the recommendations of the Directorate General of Technical Development and any items so allowed would be endorsed on their Actual User licences.

Upto 5 per cent. of the face value of AU licences issued to Fleet owners and Cooperative Societies can be utilised for import of the permissible Thinwalled Bearings specified against item 13 of List III of this Appendix.

6. Upto 3 per cent. of the face value of the licences for motor vehicle parts granted on the basis indicated in the previous paragraphs can be utilised for the import of Ball Bearing/Self Aligning Bearings/Roller and Taper Roller Bearings including Barrel type of bearings used on motor vehicles not specified in Appendix 14 to this Red Book. However, (i) water pump bearings (used exclusively for all vehicular types of engines but not general purpose bearings), (ii) front axle inner bearings (imported in equal number in the form of cones, cups and retainers), (iii) front axle outer bearings (imported in equal number in the form of cups, cones and retainers) and (iv) Clutch and Release Bearings with or without collar can be imported against the licences for Motor Vehicle parts as well as against licences issued for list III items without restrictions.

NOTE.—The provision for import of Ball bearings made in para. 6 above is meant only for Ball bearings used on motor vehicles.

## APPENDIX 27

SPECIAL ELECTRIC BULBS WHICH ARE FITTED TO PHOTOGRAPHIC INSTRUMENTS, SCIENTIFIC INSTRUMENTS, OTHER INSTRUMENTS ETC.—IMPORT OF.

Representations have been received that scientific photographic and other instruments are often rendered idle on account of the fact that they need special types of electric bulbs for use with them and normally speaking the importers of such equipment do not hold import licences for electric bulbs. The following decisions have been taken to remove these difficulties :—

(a) In future, whenever a complete equipment is imported, in which an electric bulb having some peculiarity as to size, shape or filament is used, it will be permissible to import three spare bulbs of precisely the same type and make as is fitted to the equipment imported. If the number of bulbs fitted to the equipment exceeds one, the number of spare bulbs to be imported will be thrice the number of bulbs in the equipment. The value of the spare bulbs will be debited to the value of the licence against which the equipment is imported.

(b) In order to enable the supply of replacements to equipment already imported in the country in the past, importers holding licences for equipment of a type for which such special non-G.L.S. type lamps are required will be permitted to apply for the endorsement of their existing licences to cover the imports of special types of lamps. This concession will only be granted to established importers who have imported equipment needing such bulbs during the last three years and it will be necessary for them to produce documents (bill of entry and invoices) to show that they have made such imports during each of the last three years. On production of such documents, their existing licences for the import of a particular equipment will be made valid for the import of spare bulbs also upto a value not exceeding 2½ per cent. of the total c.i.f. value of the licence.

(c) Where the equipment in question has been imported in the past under Open General Licence, established importers will be granted a special licence for the import of non-G.L.S. type of bulbs to fit such equipment equal in value to 2½ per cent. of the value of such equipment actually imported by them during any of the three years ending 31st March, 1952, provided they produce documents to show that they have been making such imports during each of the last three years.

APPENDIX 27—*concld.*

2. Applications for special licences or endorsements on existing licences in terms of the preceding paragraphs should be made to the Import Trade Controllers at the ports with the relevant bills of entry invoices, etc., and also a treasury challan where a fresh licence is needed, in the form and manner prescribed in the Hand Book.

MACHINERY (OTHER THAN MACHINE TOOLS) FOR WHICH LICENCES WILL NOT ORDINARILY BE VALID—LIST OF

*List 'A'.*—This list contains articles of machinery (other than Machine Tools) for which licences granted for machinery to Established Importers and Actual Users will not be valid.

*List 'B'.*—This list contains articles of machinery (other than Machine Tools) for which quota licences granted to Established importers for machinery will not be valid; but applications from Actual Users or Importers having orders from Actual Users will be considered provided evidence is produced to the effect that indigenous manufacturers are unable to supply the machinery required.

In preparing List A, care has been taken to include only such items of machinery as can be readily obtained from indigenous sources and are produced in sizeable quantity of approved quality, while in List B, such of the items as can be manufactured against specific orders as per customers' specifications have been included.

### COMPONENT PARTS AND SPARES

1. Where an actual user or an established importer having firm orders from an actual user desires to import spare parts of any of the machines listed in this Appendix, the application for an import licence will be considered on merits, provided full justification for the imports of the articles applied for are furnished in the application. If the value of the spare parts required to be imported by an actual user having his place of business at (a) Howrah and Calcutta, (b) Madras, and (c) Bombay exceeds in any half year, Rs. 5,000, the application should be accompanied by a certificate from a qualified Engineer, preferably on the staff of the applicant firm, to the effect that the spare parts required to be imported cannot be fabricated in any of the reputed workshops in (a) Howrah and Calcutta, (b) Madras, and (c) Bombay respectively. This certificate will, however, not be necessary in cases where the value of the applications for spares is less than Rs. 5,000.

2. This concession is also applicable to firms which are situated outside Bombay, Calcutta and Madras. In these cases, if the value of spare parts required is more than Rs. 5,000, the firm should produce a certificate from the Director of Industries of the State concerned to the effect that the spare parts required to be imported cannot be fabricated at the nearest centre of engineering industry.

3. Spare parts and component parts for items banned under the heading 'Cinematograph equipments' List 'A' and under the heading 'Cinema Machinery' in List 'B' of Appendix 35 could be imported

APPENDIX 35—*contd.*

under licences issued for Cinematographic equipments, components and spare parts falling under S. ## APPENDIX 36

(Section II—S. No. 79/V)

X-RAY ELECTROMEDICAL EQUIPMENT, ACCESSORIES AND SPARE PARTS OF ELECTROMEDICAL APPARATUS, ETC.,—POLICY REGARDING IMPORT OF.

It has been represented to the Government of India that although electromedical apparatus is allowed to be imported, the established importers of these apparatuses cannot get spare parts, accessories and supplies of allied nature for servicing and maintaining the existing equipment properly as these accessories, spare parts and articles of allied nature were classified under different Serial Nos. of the Import Trade Control Schedule which are sometimes licensable strictly on a quota basis or are not licensed at all.

2. With a view to maintain the operation of the X-Ray and electromedical equipment it has been decided that the established importers of X-Ray and electromedical equipment can apply for their requirements of various articles although they may be falling under different Serial Nos. of the Import Trade Control Schedule under one application. A list of articles desired to be imported in broad categories like rotary converters, transformers, photographic tanks, transformer oil and film hangers, etc., and spare parts of the equipment should all be listed and a consolidated application should be made for all these. The requirements should be certified by the All India X-Ray and Electromedical Traders' Association, Bombay.

3. On receipt of the consolidated application giving a list of the articles desired to be imported and the value of each duly certified by the Association, the Import Trade Controller at the port will grant each firm a licence for its consolidated requirements and attach the list of the articles with the licence. Where certain articles are licensed on a quota basis the reasonableness of the demand of those articles can be judged from the firm's quota in respect of that article. The quota for these articles will be merged in the licence allowed. If the firms concerned have obtained any quota licence they should mention the name of the article and the amount of quota licence allowed so that adjustments for the same can be made, if necessary.

4. Although the value of individual articles as per requirements certified by the Association will be indicated in the list of articles for which the licence is granted, the licence holders can exceed the value of individual items by 25 per cent. of the value for that item provided that the total c.i.f. value of the licence is not exceeded.

5. It has also been decided that the import of one pair each of lead rubber X-Ray apron, lead rubber gloves (required for the radiologist) and lead glass "goggles" may be allowed clearance under licence for S. No 79/V when they are imported along with the X-Ray equipment but not separated from it.

PART I—

*Serial No.* 17.—Cast Iron and Steel Valves and similar controls for Water Works, Irrigation and Hydro-Electric Schemes.

*Serial No.* 20.—Fabricated Gates for Dams and Barrages.

PART II—

*Serial No.* 9.—Iron and Steel articles and controls for Dams and Barrages also Cocks and Taps.

*Serial No.* 36.—All goods included in Serial Nos. 36(1), 36(2), 36(3), 36(4) and 36(5)—required for Irrigation and Hydro-Electrical Schemes.

PART V—

*Serial No.* 65.—All goods falling under Serial Nos. 65(1), 65(2), 65(3), 65(4) and 65(5) when required for Irrigation Projects.

*Serial No.* 92.—Water Meters and Measuring Instruments required for Water Works, Irrigation and Hydro-Electric Projects.

3. The Scheme will apply to applications of an aggregate value of Rs. 25,000 or over any project or subsidiary thereto.

4. These requirements will be centrally licensed by the Chief Controller of Imports in New Delhi and all the requirements should be put in the application rather than piecemeal according to the Serial Number of the Import Trade Control Schedule. The applications will be treated in the same way as the applications for Capital Goods. They should be made in the form prescribed for Capital Goods and Heavy Electrical Plant and should be submitted in duplicate to Chief Controller of Imports through Central Water and Power Commission, New Delhi.

APPENDIX 37—*contd.*

5. The initial period of validity for these licences will be one year from the date of issue and will be extended to a maximum period of three years on production of documentary evidence to show that a firm order has been placed and accepted by foreign suppliers. In cases where such evidence is produced at the time of submission of the application, licences will be issued with the maximum period of validity and no further extension will be necessary.

6. The applications should be accompanied with the usual treasury receipt and the Income-tax Verification Certificate Number or the specific exemption number as in the case of Capital Goods applications.

SPARE PARTS TO INDUSTRIAL UNDERTAKING ETC.—ISSUE OF LICENCES FOR

COPY OF LATE MINISTRY OF COMMERCE AND CONSUMER INDUSTRIES PUBLIC NOTICE No. 13-ITC(PN)/57, DATED THE 21ST FEBRUARY, 1957 AS AMENDED.

SUBJECT.—*Issue of licences for spare parts to Industrial Undertakings borne on the books of the Directorate General of Technical Development.*

The question of revising the licensing procedure to enable Industrial Undertakings borne on the books of the Directorate General of Technical Development to import readily essential spare parts of machinery required by them has been considered and it has been decided that:—

(a) Applications from industries borne on the books of the Directorate General of Technical Development for import of 'Emergency' spare parts, *i.e.*, spare parts required on an immediate basis to overcome an emergency breakdown/including a breakdown which is unavoidable for technical reasons in the course of next one month, provided a certificate to this effect is produced from a qualified engineer) of any production machinery, will be considered by the licensing authorities at the ports, and Actual User licences upto a maximum of Rs. 2.500 issued on an immediate basis. The justification for import of the spares in question should be adequately explained in the forwarding letter. Such applications should be boldly stamped on top in red ink as "Applications for emergency spares". The envelope should also be similarly stamped.

(b) Actual User applications will also be considered from such industries by the C.C.I. for import of their normal requirements of replacement spares. These applications should be made only once in a licensing period to the Headquarters Office and should be stamped as "Applications for replacement spares" in the manner indicated under (a) above. The applicants should clearly indicate the value of licence, if any, for emergency spares obtained from the port licensing authority.

2. Applications from industries not borne on the books of the Directorate General of Technical Development will continue to be dealt with, as hitherto, in accordance with the normal procedure.

NOTES:—

(1) The provision contained in para. 1(a) of the above Public Notice has also been extended to Industrial Undertakings not borne on the list of the Directorate General of Technical Development. Applications for emergency spare parts for Machine Tools falling under Part VI of the I.T.C. Schedule, will also be entertained by the port licensing authorities under these provisions.

(2) No last date for receipt of applications for emergency spares has been prescribed and such applications will, therefore, be considered on merits throughout the licensing period.

### Spare parts of Prime-movers—import of

COPY OF LATE MINISTRY OF COMMERCE AND INDUSTRY PUBLIC NOTICE NO. 53-ITC(PN)/53, DATED 25TH MARCH, 1953

SUBJECT:—*Import of spare parts of Prime-movers such as Diesel or Kerosene or Petrol Engines, etc. required for power-driven agricultural machinery e.g. Sprayers and Dusters, Power-driven pumps and Generating sets.*

It has been brought to the notice of the Government that importers are experiencing difficulty in regard to the import of spare parts of Prime-movers required for power-driven agricultural machinery, power-driven pumps and generating sets.

In this connection, it is pointed out that there already exist provisions for the import of spare parts of different prime-movers under different S. Nos. of the Import Trade Control Schedule and their import is governed by the Policy in force for those items.

With a view, however, to removing the genuine difficulty that may be experienced by importers of the complete machines with prime-movers like power driven spraying machines, power driven pumps etc., it has been decided that licences will be issued to them for the import of spare parts of prime-movers required for complete power-driven agricultural machinery. Power-driven pumps and generating sets on the basis of 5% of half of best years' imports of the complete machinery in question. The licences issued will however, not be valid to cover import of the prohibited types of spares and also such spares as have been separately shown (*e.g.*, Piston Rings, Ball Bearings etc.) under the Import Trade Control Schedule.

Applications for the purpose should be submitted to the licensing authorities at the ports so as to reach them on or before 30th April, 1953.

NOTE.—It has been decided that the provisions of this Appendix will no longer be operative.
